

I have a summer home that was closed up for almost three years. Knowing it was more than likely contaminated with mold and mildew, it would need an inspection and cleaning. Being 700 miles away and knowing nothing about services that dealt with this type problems. I searched the internet. Contacted Sonshine Construction & Home Services and talked to Barry Cabe. The next day he called back with the results of his inspection and recommendations for a complete clean-up. Also explained the process and cost.

What I thought was taking a chance, I decided on Sonshine to do the job. Several e-mails and phone call with Barry and his wife, dates and payments were set up. Upon my arrival a few day after they completed the clean-up, I was amazed at the condition of the 36 year old house. The inside looked and smelled like a brand new home. Walls, floors and ceiling were spotless, furniture, carpets clothes were mildew free.

I personally would recommend this company to anyone that needed this type cleaning. They exceeded my wildest expectations on quality of work, promptness, and easy to work with. They are a FIVE star rated business in my book, would not hesitate a moment to use them again. Very refreshing to work with a Courteous, Honest, Christian company.
