

We are pleased to endorse Sonshine Construction and the company owners, Barry and Becky Cabe. We have used the services of this company, including the previous owner, for over 10 years, and we have been very pleased with their work.

We have a house in the mountains about a 35-minute drive from downtown Franklin, but we have felt comforted in knowing that we can call Barry and/or Becky from anywhere, and one or both of them will begin working on the problem as soon as possible. The problem may be simple or complicated and require several trips, but each job is handled with the same level of efficiency and effectiveness.

Barry also impresses us with his willingness to study a problem and work up a plan and an estimate of costs. If we don't have the money to underwrite the work at that time, he still responds promptly to the next small job. Furthermore, he is very skilled in many areas and can handle a variety of jobs, regardless of the size of the project.

The Cabe's are very honest and trustworthy, and you can rely on them to provide good work and to take care of your property while you are away. We have no reservations in recommending Sonshine Construction for anybody's consideration, regardless of the size of the job.
